

## Percent Completion—3 year

Number of graduates divided by the total of those who have finished the program, either by graduating or leaving. This statistic only included students enrolled between Sum. of 1992 and Spr. of 1995. Students were considered to have left the program if they were not enrolled for two consecutive semester. Of those who did not complete their degree, 6.8% were still eligible to do so at the 1995 cutoff.
