EDHI 9040

Using Technology in the College Classroom

This course is an examination of instructional technology in the college classroom, on campus and online. The purpose of the course is to encourage participants to critically reflect on the use of instructional technologies in their fields and provide them with opportunities to develop skills in employing technology in the classroom. Topics include an overview of current and emerging technologies, how technology may facilitate teaching and learning, incorporating technology into the disciplines, and teaching online. The course is three credit hours and evaluation is S/U.

EDHI 9040 may be for you if...

- You have already taken an introductory teaching course
- You want to learn more about using technology in the classroom
- You are pursuing the Graduate School Interdisciplinary Certificate in University Teaching

This class meets in Miller Learning Center 372 on Tuesdays from 2:00-4:45pm
