Communication of Research and Scholarship
Graduate Student Grant Program

Offered for the first time in 2018, this new grant program will support graduate students who wish to communicate the results of their research and scholarship to non-academic audiences. The outreach and communication activities supported by this grant will both engage new populations with the research and scholarship done by UGA graduate students and provide opportunities for our students to develop and practice skills that will serve them in a range of careers. Activities may include, but are not limited to, school demonstrations, public presentations, game or video development, podcast recording, or creation of a smart phone app.

The funds may be used for equipment (not to exceed $499.99 total cost), supplies, travel, and other operating costs associated with your outreach or communication activities. Funds may not be used for stipend or salary – all expenses must be operating expenses rather than personal services. All funds will need to be spent or encumbered within Fiscal Year 2018, in accordance with guidelines for state funds. No unencumbered funds can be spent or carried forward beyond the established deadlines for FY2018. Departments must pick up the money from the Graduate School by March 7, 2018.

Each recipient will work with the business office in their department to make the necessary arrangements for using the grant funds by the end of the fiscal year. PLEASE NOTE: Due to the transition to OneSource, many year-end deadlines are earlier. Please confirm your plans with your business office BEFORE SUBMITTING YOUR APPLICATION.
