Application Checklist: FUSE Partnership Program

ELIGIBILITY AND CONSIDERATION

☐ Hold an undergraduate/graduate degree from one of the minority-serving institutions listed on our website.

☐ Meet the FUSE Coordinators to ask about requirements at their home institutions to be recommended for a FUSE application fee waiver and/or nominated for a FUSE assistantship.

☐ Request FUSE enrollment verification letter from FUSE coordinator. All students who receive a FUSE enrollment verification letter will be granted an application fee waiver.

☐ Apply to UGA and upload FUSE enrollment verification letter on the payment page and complete application (including letters of recommendation, unofficial transcript, resume/cv, standardized test scores, etc.) by early January.

NOMINATION AND SELECTION

✉ To be evaluated, FUSE nominees must have a FUSE Coordinator nomination for a graduate assistantship and a complete application by the deadline. FUSE Coordinators will send nomination letters for the graduate assistantship to the Graduate School by early January.

👩‍🎓 The Graduate School will select a cohort of participants between late January and early April.

🤝 Although students may commit to UGA and FUSE between January and mid April, the selected FUSE cohort is not required to notify UGA of its intention to commit until April 15th. If you decide not to attend UGA, please notify the FUSE program by April 15th.
